

Whole Omega™

Plant-based Omega-3 from Camelina Oil

The new vegan standard for omega fatty acids

Immune Support, Cardiovascular & Brain Health*

Camelina Sun

The Healthy Camelina Company

Whole Omega™

Plant-based Omega-3 from Camelina Sun

High-concentration ALA fish oil alternative from a single, sustainable source

Camelina Sun's Whole Omega™ is made from cold-pressed, virgin FDA GRAS-approved camelina oil sustainably grown in Montana, USA. Camelina oil is nature's perfect oil... it's the healthy, completely Vegan, fish oil alternative you have probably never heard of. **Camelina oil is the new Vegan standard for omega fatty acids.**

ESSENTIAL OMEGAS

Camelina oil provides the essential fatty acids Omega-3 and Omega-6, as well as Omega-7 and Omega-9, which support the immune system, cardiovascular health, and brain function. It's also effective in reducing inflammation and in neutralizing free radicals.

SINGLE SOURCE

Our plant-based Omegas are directly sourced from FDA-GRAS approved all-natural, non-GMO *Camelina sativa* oil. We cold-press the camelina seed to extract the oil, leaving all the vital nutrients and antioxidants intact.

SUSTAINABLE AND FULLY TRACEABLE

We grow, harvest, and process our healthy camelina in Montana, USA. Our camelina harvests are completely traceable from planting to final oil processing and production in our GMP-certified facility.

PROTECTS THE OCEANS & CLIMATE

Overfishing leads to the decline of ecosystems, depletion of fish and food sources, and ultimately to climate instability. Whole Omega™ is 100% plant-based and does not rely on the overharvesting of potentially contaminated fish sources.

Adding Whole Omega™ as a dietary supplement may help to:

- boost your immune system
- support your overall cardiovascular system
- lower cholesterol levels
- maintain proper blood pressure
- reduce inflammation
- improve brain function and cognitive health

All Natural

Vegan

Heart Healthy

Non-GMO

SPECIFICATIONS

- Camelina sativa oil - 2,800 mg/serving
- Total omega fatty acids - 2,622 mg
 - Omega-3 fatty acid (Essential) - 1,064 mg (38%)
 - Omega-6 fatty acid (Essential) - 576 mg (17%)
 - Omega-7 fatty acid - 5 mg (<1%)
 - Omega-9 fatty acid - 977 mg (34%)

STABILITY AND STORAGE

Whole Omega™ may be stored for 24 months from the date of manufacture in the original, unopened package at a temperature of less than 64-77°F (18-25°C).

USAGE

Whole Omega™ should be used as a concentrated omega dietary supplement.

Health Benefits of Camelina Oil

Plant-based Omega-3 from Camelina Sun

There's absolutely nothing "fishy" about the health benefits of Camelina Sun's Whole Omega™ supplement. Camelina oil contains an exceptionally high amount of Omega-3 compared to other plant-based oils. The camelina oil in Whole Omega™ is shelf-stable, unlike fish oil, which can be prone to rancidity. Camelina Sun's Whole Omega™ is the new Vegan standard for omega fatty acids.

Immune Support, Cardiovascular & Brain Health

The Omega-3 in Camelina Sun's Whole Omega™ is in the form of highly concentrated alpha-linolenic acid (ALA) in a uniquely balanced ratio of 2:1:2 Omega-3, -6, and -9 beneficial fatty acids. Camelina oil has more than twice the amount of Omega-3 (38%) as Omega-6 (17%). Combined evidence from pre-clinical and clinical studies indicates that camelina oil can help boost the immune system, support metabolism, and greatly benefit cardiovascular and central nervous system function. Camelina also helps to reduce inflammation and neutralize free radicals.*

Helps to Lower Cholesterol

Whole Omega™ helps to maintain proper cholesterol levels because it contains abundant phytosterols that block the absorption of cholesterol, which in turn lowers LDL or bad cholesterol. Camelina oil contains abundant polyunsaturated fats that are important for cell health and help to prevent cholesterol buildup and plaque formation.*

The Perfect Antioxidant

Whole Omega™ is rich in vitamins and antioxidants, which support the cells' ability to neutralize free radicals and to combat inflammation. Camelina oil is naturally rich in alpha and gamma tocopherol, two forms of vitamin E, which are necessary for human health and have been shown to have multiple anti-inflammatory and antioxidant effects. The vitamin E contained in camelina oil makes our products exceptionally resistant to oxidation and account for a shelf life of at least 24 months.

Superior Fish Oil Alternative

Our Vegan Whole Omega™ dietary supplement gives the consumer a high Omega-3 alternative to fish oil in supporting the body's overall health and nutrition. The production of camelina oil does not rely on the over-harvesting of potentially contaminated fish in the oceans. Whole Omega™ is free of environmental contaminants and is not subject to rapid oxidation, rancidity, and spoilage, as is the case with fish oil. Best of all, there's no fishy odor or aftertaste with Camelina Sun's plant-based Whole Omega™.

Camelina Sun believes in the power of nature's ingredients to improve everyday health and wellness. We produce the highest quality, all-natural, cold-pressed high-omega camelina oil and meal products, nutritional dietary supplements, and health and wellness products derived from the Camelina sativa oilseed. Our proprietary camelina-based formulations far surpass other omega products on the market today.

Camelina Sun's dietary supplements and health products are always 3rd Party tested for purity, potency, and freshness. Whole Omega™ is manufactured under NSF and GMP guidelines in a certified facility.
